Did you know...

...five of Kevin and Suzie's former gymnasts got married in the past year?

...June 4th was National Doughnut Day? It has been celebrated annually since 1938, when it began to honor the women who served soldiers doughnuts during World War 1.

...fireflies have dedicated light organs that are located under their abdomens? They take in oxygen and, inside special cells, combine it with luciferin to produce light with almost no heat.

...the summer solstice (the longest day of the year) is June 21st?

...the average cruise ship burns approximately 1 gallon of fuel to move just 6 inches?
